

111110: Cliplight Patriot Rechargeable Pocket Light

The Patriot light is covered with the US flag design and packs 250 lumens of bright white light. The red top light provides 30 lumens while the UV light below the white provides a 390 to 400 nm wavelength. The Patriot includes an Apple style cord and USB port for charging. The white light provides up to 3.5 hours continuous use while the red light provides up to 10 hours. The Patriot light is designed with a 3.6 volt mAh lithium-ion rechargeable battery. Magnets on the clip and bottom round out the Patriot pocket work light.

111110A: Patriot Light Charger

The Cliplight Patriot Light charger is an excellent accessory to the Patriot light. UL listed with a red color, it ties nicely with the white USB cord and the US flag draped light.
